"Happiness is a well-optimized life."

Summary

Backend Developer with 4 years of experience, including a proven track record as a Team Lead managing full project lifecycles. Proficient in Node.js and PHP, with a solid foundation in Java. Experienced in working with various database systems (MySQL, PostgreSQL, MongoDB), implementing CI/CD pipelines, using Docker, and applying performance optimization and security best practices. Strong in team collaboration, clear communication, and systems thinking to ensure project quality and on-time delivery.

Currently aiming to grow into higher-level technical management roles, while continuously exploring new technologies to improve productivity and system quality. Actively pursuing AWS Solution Architect certification to strengthen expertise in cloud architecture.

Skills

Programming	Proficient in Node.js, PHP, and basic knowledge of Java.
Databases	Experienced with MySQL, PostgreSQL, and MongoDB.
Frameworks	Expertise in Express.js, Laravel, Magento, and Serverless Lambda (AWS).
CloudDevOps	Hands-on with Git, Docker, CI/CD pipelines and basic knowledge of AWS
Security	Proficient in JWT/OAuth for secure authentication and endpoint protection.
Performance	Skilled in optimization and caching techniques (e.g., Redis).
Other	Strong in team management, mentorship, and collaboration. Basic reading comprehension of English

Education

HaUI (Hanoi University of Industry)   *Bac Tu Liem, Hanoi*

B.S. IN SOFTWARE ENGINEERING   *Compeleted in 2020*

Work Experience

Rikkeisoft Co., Ltd   *Me Tri, Hanoi*

BACKEND DEVELOPER / TEAM LEAD   *Apr. 2022 - Present*

- Everything that matters.
- Collaborated with BAs to analyze requirements, estimated timelines, and planned development phases.
- Designed and optimized databases (MySQL, PostgreSQL, MongoDB) to meet project needs, ensuring performance and security.
- Led a team of 4-6 developers, assigned tasks, reviewed code, and conducted unit testing to maintain high-quality deliverables.
- Developed RESTful APIs and integrated with frontend, supported testers in bug fixing, and managed code merges.
- Prepared detailed release documentation, deployed applications using Docker and CI/CD pipelines, and resolved client feedback post-launch.
- Mentored new team members, designed skill development roadmaps, and facilitated their integration into the team.

Mageplaza Co., Ltd   *Ha Dong, Hanoi*

MAGENTO DEVELOPER   *Jan. 2021 - Mar. 2022*

- Assisted in developing and customizing Magento 2 themes and modules.
- Fixed bugs, optimized website performance, and improved security.
- Integrated payment gateways and third-party APIs.
- Collaborated with frontend and backend teams on eCommerce projects.

Why me?

- **Solid experience**: 4 years of experience as a Backend Developer, including over a year as a Team Lead overseeing full project lifecycles.
- **Systems thinking**: Skilled in system design and improving team efficiency through streamlined workflows.
- **Proactive problem-solving**: Capable of identifying and resolving issues early to ensure long-term system stability.
- **Growth-focused**: Committed to continuous learning and development, with a long-term goal of transitioning into engineering management.
